How your town hall is run

Valdeloma has 8,400 residents and a town hall with four departments. Each department answers to a councillor and gathers the services it runs: if you do not know whom to ask, find the service here and call its department.

Where to find us

The council's services fill six buildings, all less than ten minutes' walk from the Plaza Mayor. Every building is free to enter; courses and court hire are paid at the residents' office on the ground floor of the town hall.
